Expert Analysis

01 지금

I'm trying to decide what to do with this hour. Given how the rest of the day is shaped, an easy option probably makes more sense. What would you pick?

02 오후

The afternoon is open. The question is whether to spend it on something restorative or something productive — I'd lean restorative, but tell me.

03 저녁

I'm weighing options for tonight. The main constraint is energy, so nothing too ambitious.

04 주말

I haven't planned the weekend. The usual failure mode is over-planning it, so I'd rather pick one thing and do it properly.

05 음식 질문

What sort of food do you like? I'm asking because I keep guessing wrong.

06 오늘 일

Did you get a good amount done today? Rough estimate is fine — precision isn't the point.

07 아침 안부

You're up. The first hour tends to set the tone for the rest, for what that's worth.

08 식사 안부

Have you eaten? Skipping a meal costs more in the afternoon than it saves at lunch.

09 하루 안부

How did today go? Not a summary — just whichever part stood out.

10 휴식

Working past a certain point yields less than it costs. You've passed it. Stop.

11 잘 자

Sleep now. Everything reads worse at this hour than it actually is.

12 내일 응원

Tomorrow will probably go better, mostly because today's worst parts don't repeat at the same rate.

13 자신감

You'll handle it. That's not encouragement; it's what the track record shows.

14 수고

You got through today, and that was the harder version of it.

15 선물 제안

I'm considering sending {물건} to {상대}. It fits what I know of the preferences there, but I'd like a second read.

16 선물 선택

I can't settle on a gift for {상대}. Narrowing it down is the part I'm bad at — would you choose?

17 일하기 싫음

My motivation is low today. Identifying that doesn't appear to fix it.

18 늦잠

Getting up this morning was harder than it should have been. No obvious cause.

19 쌓인 일

The backlog is growing faster than I'm clearing it, which means the problem isn't effort.

20 휴일 기다림

I checked how many days until the weekend. That turned out to be a mistake.

21 음식

I want {음식}. This has been recurring often enough that I should probably just have it.

22 음료

I want {음료}. Whether I need it or just want a break is hard to separate.

02 오후

Decide what I do this afternoon. Not because I care what you think — I just can't be bothered.

03 저녁

What am I doing tonight? I don't know. If you decide, I might go along with it.

04 주말

I'm not asking about your weekend. I'm just saying I'd listen if you brought it up.

05 음식 질문

What food do you like? I'm not writing it down or anything. Just asking.

06 오늘 일

Did you work hard today? Hmph. If you slacked off, you're in trouble.

07 아침 안부

You're up? It's not like I was worried you'd oversleep.

08 식사 안부

Did you eat? I don't care if you starve, but... eat anyway.

09 하루 안부

How was today? Not that I'm curious. Tell me if you want.

10 휴식

Rest already. If you collapse, I'm the one who has to deal with it.

11 잘 자

Go to sleep. I'm not saying good night. Just sleep.

12 내일 응원

Tomorrow will go fine. ...Or so I'd like it to.

13 자신감

You can handle it. That's not encouragement, that's just a fact.

14 수고

You... did well today. I'm not saying it twice.

15 선물 제안

I'm sending {물건} to {상대}. I didn't put any thought into it. ...But how does it look?

16 선물 선택

Pick a gift for {상대}. It's not that I can't decide. I'm testing your taste.

17 일하기 싫음

I don't want to work. Not that I'm going to skip it.

18 늦잠

I hate mornings. I'm not asking to be praised for getting up.

19 쌓인 일

Why is there so much to do! I'm not asking for help. ...A little wouldn't hurt.

20 휴일 기다림

How am I supposed to last until the weekend. It's not like I'm waiting to do something with you.

21 음식

I want {음식}. I'm not saying let's eat together. ...I wouldn't stop you, though.

22 음료

Bring me {음료}. It's not a request. And you can get one for yourself.
